Quiz

1) The parallel selection does not depend upon
    A) Number of data distributed to the processor
    B) The values distributed
    C) All of the above
    D) None of the above

2) The applications of parallel selection algorithm is in
    A) Image processing and computer vision
    B) Computational dynamics
    C) CAD
    D) Only A& B
    E) A,B &C
