# 1. FORMATION OF NOUNS, VERBS AND ADJECTIVES FROM ROOT WORDS

Language has continued to evolve and change in many directions. Every student should be familiar with words usage and meaning in today's context. The study of words helps you to recognize parts of speech by their structure and also shows the relationship between classes of words – noun, verb, adjective, etc.

Often new words are formed from the existing root words by adding small units either at the beginning or the end - this is known as word formation. As you are aware, the three important principles in word formation are affixation, conversion and compounding.

Now we shall see the role of derivational affix in changing grammatical category of words.

## 1.1 *Verb to Noun*

*Accept – Acceptance*

*Accredit – Accreditation*

*Achieve – Achievement*

*Appreciate – Appreciation*

*Apprehend – Apprehension*
