

Assignment 20

Read a story **from the internet**, and write a summary in 30-50 sentences, in less than 800 words. At the top, provide the following:

(a) Title and Author's name,

(b) The URL, or the *address* of the story in the internet where you read it, and

(c) A list of *items*, by covering which you prepared your summary (even if you mentally planned the composition and did not put words to the items – you can do it even now).
