Primary colour scheme

Analogous colour scheme

No, the answer is incorrect.

Score: 0

Accepted Answers:

Primary colour scheme

4) What do you understand by potential target audience?

1 point

They are the early users of a product, who contributes most to achieve the 'break-even'

They are the user group who help during the user-testing process of a product design to assess the potentiality of the product before market launch

These are the target audience group for whom the Beta version of the product is launched

They are not the current user of a product, but can be included within the target segment by product diversification or addition of features.

No, the answer is incorrect.

Score: 0

Accepted Answers:

They are not the current user of a product, but can be included within the target segment by product diversification or addition of features.

5) Which car has more curvilinear design language?

1 point

Volkswagen Beetle

Ford Mustang

Rolls Royce Phantom

Lamborghini Aventador

No, the answer is incorrect.

Score: 0

Accepted Answers:

Volkswagen Beetle
