

Perspectives On Neurolinguistic

PROF. SMITA JHA

Department of Humanities and Social Sciences
IIT Roorkee

INTENDED AUDIENCE : Under graduate and post graduate engineering students and post graduate science students

INDUSTRIES APPLICABLE TO : Almost all corporate sector employee will value this course including sales professionals, business leaders and educators. This course is useful for students as well as for housewives

COURSE OUTLINE :

The proposed course is a program to use language of mind consistently to achieve a specific and desired outcome. This course aims to train a person to make an introspection of his or her own self. The course will also study the structure of subjective experience. Neuro Linguistic Programming focuses and polishes the human excellence and communication. This program works with modelling studying an expert in the field and then breaking down the process of what makes students successful into thoughts beliefs values and actions. Applying this process a student recognises his/her potential and ability to replicate the same meaningful results and discover the core aspects of success.
